

Game Guide

Our outdoor tour „Crime Academy“ is a little different from our other tours. You play in the city center of Santa Cruz, but you are not guided by the iPad. We have built a playing field with up to 50 different spots, which you can approach in any order. Each spot contains a task or puzzle and by solving this spot the team gets points. The team that has collected the most points after the three hours win the game. Of course we will give you a proper briefing at the meeting point and explain the game to you in detail.

Key Facts

- A team consists of 5 players
- The teams compete against each other
- Game duration: 3 hours
- Suitable for larger groups such as school classes and companies or travel groups
- Languages: Spanish / German / English

THE KEY

URBAN ESCAPE GAMES

Agent training begins

14:15 - 17:00:

Solving the tasks

17:00:

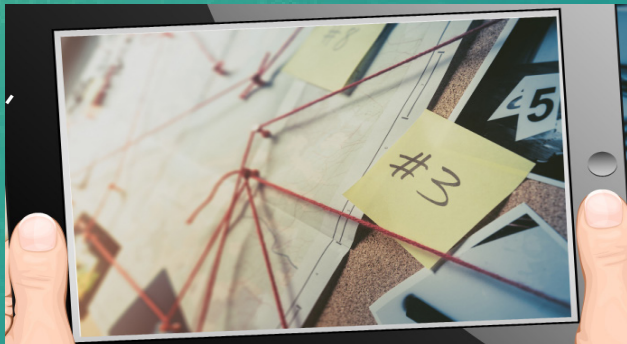

Handing in the game material at the secret meeting point

THE KEY

URBAN ESCAPE GAMES

Crime Academy (5 players per team)

Have you always wanted to be Sherlock Holmes or Miss Marple? Shadowing criminals, hunting and securing clues? Or even be James Bond? Then you've come to the right place with The Key's Crime Academy! On this tour, teams complete basic training to become investigators. The program includes shadowing techniques, evidence pictures and forensic techniques. Hot leads have to be followed

Combine clues and carry out ransom drops. Our Crime Academy takes place in the form of an outdoor event in Santa Cruz de Tenerife city center, which means that the Plaza Espana, las ramblas and many other locations in Santa Cruz become your own playing field. We have worked out about 50 location-related tasks for you, which you now have to master.

Ideal for companies, travel groups or school classes

Our outdoor mission „Crime Academy“ offers an incomparable experience for the next company party or group outing. On this tour you will explore the city together in teams of 5 in the fresh air and compete against your colleagues or classmates. The aim is to master as many puzzles and tasks as possible in 3 hours. At the end, the team with the most points wins.
